## TensorFlow Serving

Latest Submission Grade 100%

1. What is the most straightforward way of installing TensorFlow Serving?

1 / 1 point

- ☒ Using Docker Images
- ☐ Using Available Binaries
- ☐ Building it from source

✔ **Correct**

Good Job! This route is the most recommended unless there are specific needs not addressed by running in a container.

2. What is the advantage of using the **tensorflow-model-server-universal** binary to install TensorFlow Serving over the **tensorflow-model-server** binary?

1 / 1 point

- ☒ It works on most of the machines.
- ☐ It includes platform specific instruction sets.
- ☐ It is a Fully optimized server.

✔ **Correct**

Spot on!
